Creativity for Insight,  
Healing, and Self-  
Expression

Mandalas are ancient circular designs that have psychological significance for modern people. The mandalas you create are messages from the unconscious parts of yourself (outside your awareness) and that part of yourself you call “I.” This Creating Mandalas workshop gives you the tools you need to integrate mandalas into your work as a helping professional and to use mandalas for your own personal growth and spiritual enrichment.

**Presenter: Susanne Fincher, MA**, Registered Art Therapist and Licensed Professional Counselor, author of “Creating Mandalas,” and “Coloring Mandalas.”

**Pre-registration required: 404-290-8773**
